

**RESEARCH FELLOW, RESEARCH ASSOCIATE and PHD STUDENT –
2 research positions at
Nanyang Technological University (NTU) Singapore
(Shipping, Port, Logistics, and Energy Efficiency)**

Project Description

Research projects are in the areas of shipping, port, logistics, and energy efficiency. The focus is primarily on management and modeling. Singapore is a world-class port, maritime centre, and logistics hub. There are plenty of opportunities for R&D.

For job positions, Project duration is 3 years; employment contract is 1 year with an option for renewal. PhD study usually requires 4 years to complete.

Requirements – Post-doctoral RESEARCH FELLOW

- PhD holder with very good academic results in a relevant discipline from a reputable university
- With strong expertise in economics/ operations research/ energy efficiency/ shipping/ port/ maritime logistics/ supply chain management, particularly in quantitative methods, e.g. statistics/econometrics
- Highly motivated and research oriented
- Able to work independently and assist junior researchers
- Fluent verbal and written communications in English
- Strong publication record, experience in industry R&D projects and teaching will definitely be an added Advantage

Requirements – RESEARCH ASSOCIATE

- Similar description as Post doc Research Fellow above except that the qualification is Master degree holder

Requirements - PHD STUDENT

- Master degree with very good academic results in a relevant discipline from a reputable university
- With strong expertise in economics/ operations research/ energy efficiency/ shipping/ port/ maritime logistics/ supply chain management, particularly in quantitative methods, e.g. statistics/econometrics
- Highly motivated and research oriented
- Fluent verbal and written communications in English; good GRE and toefl or IELTS scores if your first degree is not from Singapore, or if your first language is not English.
- Strong publication record, experience in industry R&D projects and teaching will definitely be an added Advantage

Closing Date

- Applications are open until the positions are filled.
- Only short-listed candidates will be notified.
